## AutoCAD Crack Patch With Serial Key [Win/Mac]

The University of Illinois has a repository with AutoCAD sources and binaries, under the "AutoCAD Community Source Code Repository". Two of the most influential and widely used AutoCAD versions are the Autodesk AutoCAD 11 for Windows and AutoCAD LT for Windows. AutoCAD 11 for Windows is one of the most widely used CAD software products for Windows today. The other one is AutoCAD LT for Windows which is a line-drawing and drafting product. AutoCAD R14 for Windows is a member of the AutoCAD family of products. AutoCAD R14 is a revamp of previous versions and adds features like a new parametric and solid modeling. AutoCAD LT R13 is a member of the AutoCAD family of products. AutoCAD LT R13 is the line-drawing and drafting product of AutoCAD family of products. Although the focus of this article is on AutoCAD, there is a very good discussion on the use of AutoCAD in the video below by Canny Engineering. Q: Flex HttpService with HTTPService not working I was trying to implement a simple service that would keep a list of all the files available in a folder (for offline use). The Flex 5.4 tutorial uses a HTTPService but I am not able to use it in the project and keep getting errors like: HTTPService is not a constructor Here's the code:

### What's New in the AutoCAD?

Export back to PDF and other file formats. AutoCAD® 2020 now exports CAD drawings as PDF, so you can easily send them to a client or even collaborate with them on the same file. AutoCAD® and AutoCAD LT® 2020 also now export as SVG, so you can use these SVG files with Adobe InDesign, Illustrator, and similar applications. Generate PDF reports for your drawings. AutoCAD® and AutoCAD LT® 2020 generate reports in PDF, including thumbnails of the selected drawing elements. Use the Markup Assist function to mark up documents. Markup Assist, a new feature in AutoCAD LT 2020, makes it easy to highlight, add comments, and annotate a PDF or Microsoft Word (DOC) file. Enhanced AutoCAD® Live Share Live Share in AutoCAD LT 2020: Shared Viewing: You can now view your drawings in different locations in the same session or across the network. AutoCAD LT now integrates your Live Viewing session with any applications you are using, so you can view your drawings on your mobile device, tablet, or desktop PC. AutoCAD LT will still automatically refresh the client's drawing for you, even when you leave the session, which is why AutoCAD LT live streams client drawings. Cloud Storage: You can now open drawings stored on your cloud drive. You can now use existing drawings from your workgroup or cloud drive, even if the drawings are not stored on your computer. Automatic Updates: You can now automatically update your drawings using your FTP client. You can now update any drawing in your local or cloud-based workspace using your FTP client. Private Workspaces: You can now organize your drawings into separate folders and set the sharing options for each folder. Public and Shared Workspaces: You can now share your drawings with others, as you can in previous releases. Create, edit, and save drawings in different languages, including Japanese, Chinese, and Korean. Keyboard Shortcuts: You can now access the same keyboard shortcuts from your AutoCAD LT 2020 live sessions as you do from your PC. Improved Design Improved CADsketch: Improved Context-based: You
