August 19, 2020 - These KONTAKT Libraries can now be registered, activated, and added using Native Access and will display correctly in the KONTAKT Library Browser. Please note that libraries that were created with KONAST will no longer work with Native Access. If you install Native Access on a computer that previously used these libraries, the settings screen will display a message that they cannot be installed. Native Access will continue to work. If you used Native Access to download these libraries, you will need to activate the library the first time you install the library to work with your project.
