Paul has kept a diary which he wrote in while he was a prisoner of war during the Second World War. Our Story... Paul was a 19-year-old serving soldier, who fell into the hands of the Japanese after his unit was forced out of Singapore. In his diary, Paul tells of his days as a prisoner-of-war (P.O.W.), his time on the infamous 'Death Railway' in Burma, the brutal conditions he faced there and life on the prisoner-of-war camps in Singapore and Malaysia. It is a story of the crumbling trust and 'fake smiles' people had to live with when being treated as unwanted guests in their very own homes. The Price of Freedom (film) Description: A factual account of one of the darkest chapters of modern history -- of a young British soldier held prisoner for nearly four years by the Japanese. With heart-wrenching images of life on the death railway and through the prisoner of war camps in Singapore, this account - based on the diary of a soldier who was held in the notorious Changi P.O.W. camp - gives a unique insight into this terrible period of conflict. This invention relates generally to a first generation oil well drilling method and apparatus. More specifically, the invention pertains to an improved drilling method and an improved boom type drilling apparatus for drilling oil wells. Drilling a sub-surface oil well with an oil rig or rig is typically a very expensive operation. Expensive is defined as the cost of renting an entire rig capable of drilling oil well casing. Reader Reviews This was an interesting story but I found it hard to understand at times, because it is written in the third person. In this sense it was like I was being told the story from the point of view of another person. I didn't think that describing a guy being hanged was an interesting idea or even really wanted to read about this, but it seemed to be the story that the author thought he wanted to tell (perhaps writing it himself). Having said this I do think that the author is making a comment about how lucky we are that we can see the

results of certain events in time, so we can stop them (or change them) if necessary (even if that means killing a lot of people). The story was well written and if I hadn't known that it was written by a p.o.w. I would have thought it was a good story. I just found the writing a bit confusing at times, as it was being told from the view of a third person.
