Today I'd like to demonstrate just that to you. I'll show you some nice, quick and easy ways to create a sketch of a portrait in Photoshop. 0:32. Let's get started. The first thing you need to do is create a new document. If you are new to Photoshop, consider starting out with the New Document window, for a better experience, or at least that's what I think. 1:12. Using the Line tool, draw a vertical line. It doesn't matter where you start. 1:25. Once you've drawn it, change the line's color to a dark gray. It's very important that you keep the line's color gray because you'll use the line for the drawing template. Select the line with the Lasso tool and move it to the bottom of the document. 1:41. Select View > View Options and scroll down to the Drawing radio button. Choose Pen Tool and check the Dotted Line checkbox. 1:51. Choose Pen Tool again, but don't type in anything. Click on the line and drag it to the top of the document. 2:13. Choose Edit > Stroke Selection and adjust the line's thickness to what you think is perfect. 2:28. Don't select the line or the background. Select
