column in same group by, on new dataframe I
have data in this format: group | date | product |
client | value 0 | 1 | a | 0 | 0.25 1 | 2 | a | 0 | 0.3 2 |
3 | b | 0 | 3.5 3 | 2 | a | 0 | 2.3 4 | 1 | a | 0 | 1.3 and
I want to create new dataframe in following way:
group | date | product | client | value 0 | 1 | a | 0 |
1.5 1 | 2 | a | 0 | 1.8 2 | 3 | b | 0 | 3.5 3 | 2 | a | 0 |
1.3 4 | 1 | a | 0 | 0.5 As value in new dataframe is
sum of all values for clients from group by date.
As you can see if client is same, then in new

Features Key:

-
- Fast reaction time - Clank with your enemy before their attack hits you!
 - Power-ups - Infiltrate enemy bases and gain powerups. Extreme power-ups like the Pulsar laser, Electro-slicer, and Superdrill are at your disposal!
 - Unique weapons and items - Have fun blasting away at the tequila worms. Use the explosive item bombs to trigger amazing explosions.
 - Multiple base attacks - Take advantage of the numerous base attacks that are all available in the mode, such as the Tractor beam, Groove generator, or Medi-beam. Master it all, and activate the turbo mode to attack instantly!

Flesh God is a hardcore action platformer where you shoot a massive gun to fly through deadly levels infested with mutant flesh. You shoot, everything flies The Earth has been devoured by a massive mass of meat and you are the one left to defeat it. Run and shoot to survive and kill your enemies in this action-packed game. Shoot down to fly up, shoot left to dash right. You are the gunner. One tool – multiple uses You have your gun, and that’s all you need. Shoot to launch yourself across the level, shoot to kill your enemies and shoot to live another day. The gun is used to convey all the movement and action through easy to learn but hard to master controls. Deadly platforming levels As you progress in the game, your gun will upgrade with more shots, which will allow you to perform amazing acrobatics to beat the 40+ short-but-intense levels. Shoot your way around, dodge bullets, tongues and teeth, and just when you think you’re

safe, a truck-sized monster appears running to eat you. When that happens, leave the controller alone, take a walk, talk to some friends, think about your life choices. Then you'll be ready to try again. Global Rankings Run and shoot faster than the rest of your friends to be the king of the level. Push harder and find the quickest way around a level to become the fastest of the world. Dark and twisted world Who are you? Why are you fighting? Pray to The Flesh God and try to find all the pills of each world to unlock your dreams and learn the truth. Set in a hyper-reality which is becoming ever more suffused and distorted, Alex's problem is that his mother's death is real, and because of this it's hard for her to be used as a decoy to separate the Government from Alex. Set in a hyper-reality which is becoming ever more suffused and distorted, Alex's problem is that his mother's death is real, and because of this it's hard for her to be used as a decoy to separate the Government from Alex. Inspired by the events surrounding the US election, this is a 'what happens when we destroy ourselves?' parable set in a hyper-reality which is becoming ever more suffused and distorted, Alex's c9d1549cdd

Sometime in the near future humans have started spreading on other worlds and from there started slaving more and more new worlds as they could, human nature dictating they would do the same on earth and start expanding there. After the more advanced civilizations of space began making contact with earth of course we had to wipe out the less modern ones as they were not like us and they would take over the earth. So after they had wiped them out the humans spread on the more Earth like worlds and established their own world. The gods were not happy with that and the worlds that were not following the gods law very much were always ruled over by the gods and then the humans would make laws and if they got too bad they would have a rebellion which the gods would crush it. Throughout time more humans have colonized and more laws have been made and no where ever did the humans had there own world. Now its time to make a new ice age and humanity has again made it so as they were not made to live and thrive on earth anymore. Its now a race between the gods and the humans to see which one can cut the most glaciers around the planet of earth. "Slice the Ice" is a strategy game where the goal is to cut the most amount of ice on the planet

earth. The way you do this is by gathering a swarm of drones, attaching them to ice and then letting them cut the ice. Its a very simple but fun game and I still find it challenging some days, it fun to play and probably the most addictive if you play it for a few days. Game "Deep in the Apathetic" Gameplay: The game is played over a rough map of the world which it is divided into a grid of 5x5 square cells. Each cell is either empty or filled with a solid rock type material. Your objective is to build a mine near the top of the map. More on what you can do when you are mining will be covered later. "Deep in the Apathetic" is a voxel map style game. Voxel map games are different in that they are made of little cubes that are called voxels instead of meshes. A mesh is made of faces, as an example a cube has 6 faces, if you take away 6 of them it remains an exact cube with the same properties. With voxel map games you are making the cubes that are going to be your voxels. To make cubes you have to make a cube, you do that by giving
