The Tarnished Lands between worlds, the Lands

Between. Home to warriors, crafters, cravens, heroes, cravens, and other nameless wanderers, the Lands Between is a wide and varied land. It was here that the Elden, a race of god-like beings called Elden, and the human, Shain, first set foot. It was also here that the Elden first used their power, the use of which was forbidden to humans, to strengthen the four pillars of magic to ensure they would last indefinitely. However, in their infinite ambition, they were tricked by their former allies the giants into damaging these pillars. As a result, the Elden was forced to evacuate their home and flee. As they fled, they lost their memory of their home country, and each other, and the lands between them changed in nature and became a chaotic realm. Thus, they called this land between the worlds, the Tarnished Lands between worlds. Now, an unknown crisis has begun. Not just once, but many times the Tarnished Lands Between worlds have appeared. The crisis has broken the spells keeping the Elden's power sealed and has opened a path to the Tarnished Lands

between worlds. In the Lands Between, there exist the Elden lands, a dead world with statues and ruins which was formerly known as the Elden's home land. There are also the Profane lands, a realm of twisted darkness and bloodstained evil, and the Beast lands, a world which originally belonged to beasts, and bears the curse of the beasts imprisoned within its soil. Among them, there is also a land called Elysium, which has its own profound history. The situation has become perilous; not just for the Elden but the people living in this vast world as well. THE STORY OF THE TARNISHED LANDS BETWEEN WORLDS For 250 years, the Elden have been forced to flee their home land, the Elden home, because they were led by an Elden Lord who wanted to fully control the Elden's strength of magic. One day, their Elden Lord and the other Elden who was following him began a conflict over the fate of the Elden and had a destructive war over the sorcery, and even when the war was over, the Elden could not return to their home land. In the end, they had lost their home, the

legendary land of magic, and could not

Nerlens Noel (5'11"/190 lbs) - University of Kentucky by Basketball Prospectus There's a common misconception that Noel doesn't look that tall because of his frame, but you'd be wrong. His 203 centimeters (6-9) look nice on a 6-foot-9-inch player. **NBA Draft Combine Analysis - Lee Higgins** "The recent disappointing stretch was just temporary, as Noel is now back to the form that led to his dominant sophomore season at Kentucky. He struggled to get good shots off the bounce in a system that wasn't a great fit for him during his college career and the NBA said it was an issue that needed to be fixed, and it was. After spending a week with Noel's club team in the summer, it was evident that he spent extra time working on his shooting, giving him a much better chance of making a success of his NBA career. After being drafted 12th in 2013, Noel is going to a

team that has the athletic ability to put him in better positions to thrive." Watch: Nerlens Noel, the versatile, explosive scorer NBA Combine: Nerlens Noel takes 30 on 3-point shooting test Kyrie Irving on the Celtics College Championships "I think it'd be something that I'd enjoy, to be honest with you, because I think that it's very fun to go up against those guys and play against them. It's very competitive.... These are guys that you know are going to be at the highest level, of course. But at the same time, you know you can enjoy having a few of your teammates against them, like Trey Burke, or even [Ian] MacKay." UConn Huskies Football Summary "The 2013-14 Connecticut Huskies finished the season with a 10-2 record and a perfect 8-0 away from home. The Huskies finished tied for third in the Big East and earned the right to host the Big East championship game.

What's new in Elden Ring:

STORY

The First Ring of a Lightless Realm

After a world emerged from its eternal sleep, a multitude of dragons arose and spread over the lands between. The dragons were split into five types, and the gap between each faction of dragons became wider and wider over time. The darkness of the dragons' hearts and their incomprehensible hatred for humans led to a war. After an unknown number of years, the five dragons became locked in a terrible abyss. The only way out was the hope of a legendary power, the last remnant of the ancient Elden Kings.

As the five dragons fought and became dark and hideous, humans and elves who lived in the lands between became tormented by fear. They prayed to the goddess and began to nurture a legend about the "Imperial Ring," the ring of light imbued by the god of strength. A messenger imbued with power by the gods appeared before the five dragons. To protect the world, the messenger asked for the assistance of a powerful individual. However, the messenger was destroyed, and the gods abandoned the people.

During the time of despair, a boy called Tarn received a ring imbued with the power of the god of strength.

One day, Tarn went to steal the Imperial Ring, and accidentally kidnapped the princess of the dragon lord of the red dragon race, become the emperor of the red dragons. Traveling along the Ring of the Lands Between, Tarn encountered his childhood friend, Ahaz, the daughter of an elven priest.

As Tarn cast off the fear of his former life, he settled in the Lands Between. As a child, Ahaz looked on in awe at the powerful Tarn, her friend, and the leader of a powerful human and dragon race.

Shortly after that, the new sovereign, Ghidhi, appeared. After a period of time, Ghidhi entrusted the fate of the Lands Between to Ahaz and Tarn, and divided the lands into four zones: the region of Vail, Ondia, Etheria, and the skies. The new governor invited all races in the lands between to become Elden Lords, after being blessed by the Elden Ring, the Imperial Ring imbued by a god. From the beginning, Tarn's hometown was named Vail,
