▼Story Prologue ▼What happened to the 10th Elden Lord? ▼As the Morning Star light shines on the world, the Land of Eastria enters a period of peace. The 10th Elden Lord suddenly died and the constellation of Light and Darkness separated. Worries about the future began to grow... in the Land of Eastria, things began to heat up. A cloud of darkness gathered over the land. The land became covered in graves and the night sky became blacker than usual. The people's pains as they awakened to such disturbing troubles was heard from all across Eastria. Then, the Prime Elden Lord appeared at the top of the world's highest mountain, the Crystal Tower. The Prime Elden Lord said, "My people, all that has happened is because of me." The world's cries for the Lord's protection finally united, and the past memories that the Prime Elden Lord had lost were restored. The Prime Elden Lord said, "If the Elden Lord who dwells in the underworld truly exists, he would lend his strength to us." Greetings Captain Bardsun! Okay, here it is. All the gear that I've been testing and playing around with. **NOTE: SOME OF THESE ARE NEW!!!!** _____ There are no good men in the afterlife. They were all evil, and any handy bard that wandered by, would have got down to his old bagpipes for the occasion. **THIRD ACTION RPG OF THE HORDES.** A major career path brings a brave individual to the highest title of the Farlands Empire, the position of Commander of the Knights of Blood. However, such a path is fraught with danger, and those who guard the land from menaces beyond must be prepared for all kinds of unexpected challenges. In the Lands Between two goals may be equally far, but the road to the path of endurance is long and full of peril and glory. The Knights of Blood is a primal force that has manifested from a combination of the Kingdom of Blood and the Neverdark. Eden Ring is the latest tactical RPG (to come to PC) created by the hacker himself and the most popular modder Blackbade1. After having viewed the game and found out a good many flaws contained within it, Blackbade1 decided that the game wouldn't be released in such a state. Thus, after collecting all data pertaining to the game (save-files, functions, abilities) and having learned all of the flaws contained within the game, he has decided to create an environment that didn't let said flaws become corrupted.

Eden Ring doesn't contain any bugs or glitches or errors or any known exploits within its code. Everything, with the exception of its ending, the battle system & the dungeons, is bug-free. Hopefully none of these bugs will become corrupted since there's none left.

Love action RPG? Then the saga of the fearless Tarnished is ended.

Mod note: The gameplay of the mod, to a certain extent, has been influenced by the DarkArms mod for The Secret World. Feel free to check it out.
