What's New In?

Tile Tabs™ for Firefox is a high-quality Firefox® Addon for Windows® PC, Mac OS® and Linux®. You have always been able to view Tabs in Grid format, but Tile Tabs™ takes it to the next level by introducing an entirely new layout and feature set that makes your browsing experience more interactive and easier to manage. By organizing Tabs into a customizable grid of tiles you are able to put focus on each of them, in order, effectively eliminating the need to scroll back and forth between multiple Web pages at one time. Tile Tabs™ complements this by providing new, more flexible features and options than ever before. For example, you can now drag the Tabs tiles left or right to rearrange them, zoom in or out to fit better on your screen, or simply add a tile as a shortcut to open a new Tabs window.
