Frog Bath is a multiplayer platformer with arcade-style gameplay and an emphasis on froggy movement. The game has only one goal: to bathe the Frog King by delivering soap to him. You play as one of the three available characters, each with a different jumping strategy and main ability. If you're the Frog King, you have to rely on your shower skills to make the soap reach him as soon as possible. If you're the Aruga, you need to use your tongue to snag the bath items out of enemy frogs' hands and get the jump on them. And if you're the Doppler, you have the ability to shoot your tongue outwards to stun competitors and grab the soap before they can even pick it up. Frog Games is a student-run game development studio located at Champlain College in Burlington, Vermont. We work in a game development environment with students from our Game Studio program who are producing games using the Unreal Engine 4, along with our Frog Bath game. In this froggy kingdom, it is every young frog's dream to be able to bathe their Frog King. He's. really not sure why, but he has no complaints; he's getting a free bath after all! In fact, the Frog King has encouraged all frogs to compete against one another in giving him the best bath possible. Every single frog in the land has jumped at the opportunity to shower the Frog King, and the event has turned into a spectacle and - quite honestly - the only thing the frogs even care about now. So get your friends, grab some soap, and prove that you are the best at bathing His Cleanliness! Frog Bath is a multiplayer action platformer with an emphasis on froggy movement. Players fight over bath items by using their different movement abilities in order to deliver it to the Frog King and give him the bath he deserves. By combining their different types of jumps and their sticky tongue, players can move all over the map in order to gain the edge on their amphibian opponents. But watch out! Players can use their tongue to stun you or even steal the bath item from out of your possession! Fight back with the bath item, spit it out from far away, or even just tactically hop around your competitors to secure points and become the best at bathing the Frog King. Froggy Features Timing-based jumping abilities Tongue hook-shot and tongue combat One big ol' AI-driven Frog King 2 cute playable frog characters

Biography “I was born into a life of privilege, had God-like genes, and spent 10 years in film school,” Ashley explains. “So why would a reasonable, educated woman do something like this? Aside from the fact that Hollywood and the sexual revolution forced me to make these films, I’ll be damned if I’m not having some fun doing it.” And that’s not all that is fueling Ashley’s freedom. “I’m bisexual, and I’m a redhead, the latter of which is rare,” she says. “To the thousands of people who know what Ashley Lane’s like in bed, bisexuality has never been a problem. So why should it be for any strangers?” Ashley is also the owner of Ashley Lane, a long time web site, and the manager of Tin Angel, her hardcore site on which she is produced. “The sites are just more fun to run,” she says, “because I’m getting to say what I like and do what I want. I also get to support my own dream, as well as that of my site partners and crew.” On the site, Ashley is well known for her dominance and introduction of “Femdom Porn.” She has also appeared in several gay porn films, and for her raw imagery and passionate performances in films like Asshole Control (GayVN) with Corbin Fisher, she is often called the “Sophia Coppola of Gay Porn.” Finding new ways to use her sexuality, Ashley is not only involved in Femdom and Lesbian, as she will find herself in in April’s upcoming Adam & Eve movie, Mistress Ruby. Shot in Detroit with a cast that includes Melanie Moore, Sara Lyons and Harley Henson, the plot details are being teased on Ashley’s site, but the plot is basically spun out of a college fantasy: a four-some sex experiment which leads to multiple orgasms. Samsung Apps: The country of Arkansas has a long history of pioneer life. Some of the earliest European pioneers were German, Welsh, or Scottish immigrants. Although few of the early settlers are known by name, several facts about the early settlers are known. It was not until 1777 that the first Arkansas land grant was issued, a section containing 1,000 acres, granted to Samuel Darien. On October 24, 1805, the General Land Office issued its first land grant in Arkansas, a tract containing about 44,000 acres extending from the southwest corner of Missouri, opposite Independence Rock, to Red River. This grant was for public use. The state's name is derived from a Choctaw word that means "land of reeds." The Arkansas Territory was established by act of Congress in 1819, and its original boundaries included a section of land from present-day St. Louis to the Louisiana line. From 1819 to 1821 the area was known as the Missouri Territory. The first governor of Arkansas, elected in 1833, was Isaac Johnson, who obtained the third land grant. Throughout the land grant era, travel in the area was difficult because of the heavily timbered terrain. In 1847 the Arkansas Territory was carved into seven new counties, each retaining its own court of law. The county seat was first selected in a four-way vote: Little Rock, the seat of the Arkansas General Assembly; West Memphis,
