Battle Enemies in open combat: Please note that you will encounter more powerful enemies as your actions progress. If you wish to use magic, including special moves and combos that require a certain minimum EXP for your character to use, you will need to step up to it. Choose from Six Class Types: As in most RPG games, you can choose a class at the beginning of the game, and change your class later in battle. The game also supports the "Create-a-Class" function. Collect and prepare items that will improve your fighting ability: Equipping items in battle will increase your experience points (EXP). They can be obtained through common battles and the story. Use them to level up your equipment and improve your stats in battle, including your life points. Create your own custom character to fight against bosses: In order to fight against the bosses, you will need to build up your own "personal tank" (read this as "war machine"). The best way to do this is to accumulate strength through battles and Magic Points (MP). Experience a wide variety of battles: While you battle on the field, you will encounter the various enemies that appear in the Land Between. Prepare for battle with a variety of enemies in real time battles to progress. Fight against powerful opponents with a wide variety of skills: If you are up against a good opponent, you will need to prepare yourself by selecting the proper skill in the menu. If you use the wrong skill in battle, you will fail the battle. Prove your might as you are guided by grace: Fight against the powerful enemies and be guided by the grace of the land. Sneak around in Stealth Mode: Every once in a while, you will be able to sneak past the enemy's defenses to attack. If you do so, you can use other abilities as your weapon, such as using a crossbow or your mouth. Use Magic to cause Chaos: Aside from combat, you can also use the Magic Points (MP) you obtain in battle to use a variety of magic techniques. The effects of each ability differ from battle to battle. Battle Various Enemies: Depending on your class, you will encounter a variety of enemies that you can defeat using the various items and skills you obtained. Collect Items and Upgrades: As you continue to play, you will encounter a variety of items. These can be purchased in the item shop,
