Avaris 2: The Return of the Empress is a standalone expansion to the "Avaris" battle management game. The rules are different but the scoring system is the same. Some improvements have been made to the combat system. There is more detail in both the graphics and the story. The playable character is also updated to make for more interesting encounters. Two new units, Dwarf and Snow Norn, have been added. A little magic has also been added. A:

MechWarrior II: Mercenaries is the sequel to MechWarrior II: Mercenaries. I found that the review copies have been released on Steam and are currently listed as "Release Date: unknown" Reviews "When you've played through a few of the missions, you'll probably realize that there are a lot of similarities, but also a few differences between the two games. That's why I'm so curious to know what fans of the first Mercenaries game think of the new one. Fortunately, they're being very kind about the game as a whole. The developers have done a fantastic job of keeping the title true to the gameplay of the original."- NerdNerds "If you liked the previous Mercenaries game, then you'll probably really enjoy this follow up. The game is just as funny as the first, and is just as entertaining as the last. Mercenaries 2 also has one of the best soundtracks to date. The soundtrack definitely deserves a spot in your playlist."- GALAXYReviews

Technical Info "Mercenaries 2 lets you play as two different mechs with two different mechbases. You've got the Canadian Heavy Assault Unit, who is a heavy assault unit that also sports an AIM-16 (which can pretty much shoot anything) and an array of missiles at their disposal. The second mech you can play as, is the American Heavy Assault Unit who sports a SRMs and a can of AP/SRM ammo in addition to the AIM-16 missile launcher. You have a lot of play options, as you can either play the same mission, with the same mech, as a different team, or go in with a different mech and team. There's a lot of different endings in the game, depending on how you do on a mission."- Bright Side Gameplay "Mercenaries 2 takes everything that was fun in the first game, and then amps it up to eleven, so to

Solve Mahjong puzzles to collect the required pairs. To remove tiles from the board you must match with combinations of different symbols. Mahjong is the most popular variant of traditional Chinese playing card game. The goal is to remove all blocks from the grid, except for those with the same symbol - it's a very easy game to learn, but also very challenging. At the beginning of the game you need to tap two tiles each, but after the time passes you need to match tiles together or remove them from the board. When playing Mahjong, you need to follow the instructions - you can't choose what tiles you remove. The game is played with one or two players. You can play separately or a pair. There are two options. You can go either left or right on the board. The game can be played right to left. If you play right to left the tiles which are hit will fall either to the right or left. If they fall to the left they can be picked up at the left side of the board. To play the other direction can be done by tapping a direction on the screen. The tiles you remove will fall to the left or right side of the board. If you want to match a pair of a tile, you need to touch both tiles simultaneously. There are 5 tiles, including joker. You need to remove 2 tiles. When you want to remove tiles, you need to put them into a virtual stack. If a tile is pushed to the stack, it can be removed from the board. If you remove all blocks, you win. You can also play a bonus round called "Zap Collection" where you start with 2 special tiles. You need to collect a certain number of special tiles on the board. If you do it, you will automatically win the level. Tap on the screen, once you are ready to play.

**reports on the global developments with the predatory loan in a couple of posts. Nearly 18 percent of Brazil's exports at risk and 541 municipalities insolvent as country sinks into recession - TIME The month started with Alcione Suarez struggling and the villa packed, people ending up sleeping in plastic tents in the swimming pool. Crisis loomed, now the mountain is in full cry. Alcione Suarez is former banker at the Agra Bank of Brazil (Banco Rio), now a retired manager of the bank's operations in Rio de Janeiro. She testifies in a legal battle that has now swollen into a series of practices that "destabilized" the financial system. In the last week of March 2008, Alcione received an email from a London-based lawyer representing the middle of a London court. They informed that the lawyer's client (a British client) was attempting to recover their funds in a London court. The message was bad news - the funds were lost in Brazil. Alcione was informed that the middle lawyer requested information from the bank on where the client had kept the money. The Agra Bank had the information in file - something that news of the account is written in a document for any client. Next, the message informed that the client had filed a legal action to recover the funds. Alcione then began to wonder - who was the client? Brazil needs to find 88 billion dollars to pay the World Cup this year. (AP Photo/Andre Penner). Alcione Suarez image of her, manager of the R\$, billion bank. Image of the middle of Rio de Janeiro in a city now in crisis, with millions of dollars running down. 644 mayor of Rio de Janeiro are now either in Brazil or in jail, some for embezzlement, but the majority for corruption. The Agra Bank's bank account. The West London court has jurisdiction over the case since it was filed there. Alcione began to get rattled. It was a dangerous move to the bank, would have serious consequences, and really shook the bank. As Alcione began to ask questions she was informed that the client had already won the case and was already in receipt of the funds. Undeterred, Alcione requested that the Brits lawyer notify her that this was not the case. She was surprised, since she was the boss and the money was in a file**
