?Tezuka Kouyou; Review (Caliberon)? - Upcoming RPG that Had Potential I felt it was worth playing for a while because there are a lot of elements in the game. However, I think it's a genre that is difficult to adapt to. It's very difficult to build a new world when the basic game is a Turn-Based RPG that has a past game in the real world. For example, if a character goes through a dungeon with monsters and defeat all of them, even if there is a good dungeon, the dungeon is just a tunnel in the game. You can't really say that it is a dungeon, but it doesn't seem like it is a dungeon. This is an issue that I think the RPG genre needs to solve, and also a problem in the action genre. You can even use the same element, when you defeat enemies, to improve your character or equip an item. If you equip a lot of items, the game will feel incomplete. I think that's a problem that only RPGs can solve. If that is fixed, it's easy to grasp how the game would be fun. It's not that the adventure is difficult to start with, but it's a little difficult to understand, and it has a high turning point. It's a good RPG. ?Eiji Komatsu; Best RPG Game of 2016 (Kagawa Prefectural Board)? -Action RPG for Enjoyment and Casual Players Fun, fun, fun. It has a great atmosphere. The battle system is diverse. It's a huge world, so there are also monsters with high levels, and there are party members with various levels. I got attached to my character with a heavy hand. There are all of these things that create a unique atmosphere. If you like action games, it's a good game. ?Yasunori Takamori; Best RPG Game of 2016 (Shizuoka Prefectural Board)? -A Great Game With a Unique Atmosphere The main character has an original design. I made a character with the appearance of an action hero, so I think that it had an impact. The equipment you use has an impact bff6bb2d33
