Vampire Hunter 3D is a 3D first-person shooter game. You are a member of an elite squad tasked with infiltrating the castle and destroying the vampires that ... live here. The game's storyline begins with you, as the main character, embarking on a journey that should lead you to an island where there is a castle filled with vampires. The game is divided into several missions. At the beginning of the game you must find yourself a weapon and prepare for the mission. You start your game without weapons, so you need to find yourself firearms and other equipment. Once you have found weapons and prepared for the mission, you can go into the game. When you move to another location, you will need to select new weapons and ammo. Throughout the game you may encounter several boxes of supplies. In these crates you will find ammo, weapons, and first aid kits. At the end of the game you can choose one of three endings. At the beginning of the game you need to find the entrance to the subway.
